The world today is a very dangerous place to live on. It is governed by war in Ukraine where the West is funding the President Volodymyr Zelenskyy militarily against Russia without any solution on the horizon. Fighting in Sudan between the forces of two rival generals erupted on April 15, 2023 between Gen Abdel Fattah Al- Burhan, commander of the Sudanese armed forces and Gen Mohamed Hamdan Dagalo, universally referred to Hemedti who heads the influenced paramilitary Rapid support Force. Some analysts predict the conflict may have far reaching consequences not only for the northeast African country, but also for an unstable region that led by killing more than 450 people raising fears of a prolonged and unpredictable civil war.

There is a war against nature which God Almighty has created to us as human to benefit from to create the scarcity in food and shortage of necessities so that people can fight each other for human survival. Sadly, humanity is waging war on nature, and it strikes back, and it is already doing so with growing force and biodiversity is also collapsing. The human inflicted wounds on the nature that spread of deserts, wetlands lost, oceans overfished and choked with plastic and air pollution killing 9 million people a year.

On the other side of the equation where there is large number of people believe Bill Gates is on a mission to wipe out the human species through forced injection with fertility -blocking or poisonous substances and microchips disguised as Covid-19 vaccines.

While others believe the Covid-19 pandemic was deliberately engineered by him and other global elites including the United Nations to depopulate the

world. This idea is often referred to as “The Great Reset which was initiative by the World Economic Forum (WEF) which meets annually in Davos.

The best book whose author revealed the closer relationship between Anthony Fauci, Bill and Melinda Gates which is entitled: The Read Anthony Fauci: Bill Gates, Big Pharma, and the Global war on Democracy and Public Health, by Robert F. Kennedy Jr. [www. Skyhorsepublishing.com](http://www.skyhorsepublishing.com), 2021. Bill Gates and Dr. Fauci have hijacking World Health Organisation public health agenda away from the projects that are proven to curb infectious diseases (such as clean water, hygiene, nutrition, and economic development) and diverting international aid to wedge open emerging markets for their multinational partners and to serve their personal vaccine interest. Sadly, Bill Gates has played a key role in legitimizing this arrangement while collaborating with corrupt WHO officials to Western donor nations into footing the bill, and guaranteeing rich profits for pharmaceutical companies.

Gates has invited Dr. Fauci to Seattle to propose a partnership that, two decades later, would have profound impacts on humanity. Melinda Gates told: “ Tony, you run the biggest infectious disease institution of the world. And I want to be sure the money I spend is well spent. Why do not we really get to know each other? Why do not we be partners.

Over the next two decades, that partnership would be extended to include pharmaceutical companies, military intelligence planners and international health agencies all collaborating to promote weaponized pandemics and vaccines and a new brand of corporate imperialism rooted to the ideology of biosecurity. Sadly, that project would yield Mr. Gates and Dr. Fauci unprecedented bonanzas in wealth and power and have catastrophic consequences for humanity.
